Skills

Languages Tools Soft Skills :- HTML, CSS,Python, C++,Social Media Marketing, Content Writing, Figma, Canva, Power bi,LaTeX

Education

VIT Bhopal University 2023-2027
Bachelor of Technology - Computer Science with Specialization in AI ML
CGPA : 7.85

Madhya Pradesh Board Of Secondary Education 2022-2023
◦ Percentage: 88.4

Central Board Of Secondary Education 2020-2021
◦ Percentage: 91.2

Projects

Early disease detection in Plants using Deep learning

- Our project will underscore the significance of agriculture in India's economy .It is aiming to develop an automated system for early detection and classification of plant leaf diseases using Convolutional Neural Networks (CNNs).
- Tools Used: Python, Deep Learning

Retrieval-Augmented Generation (RAG) system with conversational memory

Our system combines RAG with memory modules to enable context-aware conversations over large datasets, making interactions more natural and informed.

Tools Used: Artificial Intelligence and Large Language Model

KEY COURSES TAKEN

- Operating Systems, Theory of Computation Compiler Design, OOPs with C++, Python Programming, Java Programming, Fundamentals in AI ML, Database Management System, Computer Networks.

Clubs and Community

Blockchain Club VITB

- Core Member Blockchain Club VITB
I am working in the Social Media team as a Core Member in Blockchain Club. October 2024

CyberWarriors VITB

- Core Member CyberWarriors VITB
Working in the Social Media and Marketing team as Core Member in Cyber warriors Club.. September 2024
