PROJECTS

Retrieval-Augmented Generation (RAG) system with conversational memory

- Our system combines RAG with memory modules to enable context-aware conversations over large datasets, making interactions more natural and informed.
- Tools used: Artificial intelligence and a large language model

Zomato Analytics Dashboard

- This Power BI dashboard provides a data-driven overview of Zomato's food delivery operations, customer preferences, and restaurant performance. Built using structured datasets, the dashboard helps stakeholders make informed decisions through interactive visualizations and key performance indicators (KPIs).
- Tools used: Power BI, Excel/CSV for raw data preprocessing
